Mdm Song is the best teacher because she teaches me Science and lets my results get better. She lets me do experiments and will correct my mistakes and explain to me why the answer is as such. I am very happy to have a teacher like her!

Calista Seah
P5 Science Sembawang Primary School

Mdm Song is an excellent Science tuition teacher. Within 3 months of being in the tuition centre, under Mdm Song's guidance, my grades improved from 66/100 to 87½/100 (B to A).

This learning centre has allowed me to learn concepts of solving questions, and how to answer questions properly via touching the point! The small class size and worksheets have allowed me to excel even better in the upcoming PSLE!

For those weak in Science or is unfamiliar with certain concepts or losing marks in papers by not answering the questions properly, I will highly recommend this centre to you!

Lee Jung Han
P6 Science Bukit Panjang Primary School

Mrs Lew is a very friendly and patient teacher, and she always prints out extra notes for us and takes time to explain things to her student. She makes learning science fun and is humorous. This year, I was having troubles with all 3 Science subjects, but under Miracle, I managed to do well for all of them. Thank you Mrs Lew for your help!

Noelle Lee
Sec 2 Science Methodist Girls School

I have come to enjoy Physics as a subject much more after joining Miracle Learning Centre! Mr Wong is clear in his explanation of questions & concepts, & also provides useful tips in tackling various topics. He even goes beyond the syllabus to show us ways Physics is applied in real life, making the subject interesting. I now feel much more confident and prepared whenever I have to do Physics papers and questions!

Sheryl Lim
Sec 4 Physics Methodist Girls' School

Mdm Yong is a caring and knowledgeable teacher. Whenever I run into any hard questions which I do not know how to do, I will ask her for help and she would clarify it for me until I know how to do it.

Clarence Kan
Sec 1 Science QWSS

My Chemistry has improved tremendously from a C5 in Mid-Year Exams to A2 in Prelims. Thanks to Mr Lim, I have a better understanding of the concepts in Chemistry as he is able to explain concepts clearly to me. He helps me prepare for exams by giving me useful tips and encouraging me as well.

Ashbel Chioh
Sec 4 Anglo-Chinese School (Barker Road)
